

## Stewardship topic of meeting

Arts and stewardship will be the topic of a meeting of the Humber Natural History Society on Tuesday, Nov. 2.

The meeting will be held at Sir Wilfred Grenfell College in Corner Brook.

Dulcie House, program co-ordinator of the Limestone Barrens Habitat Stewardship Program (LBHSP) and Charlotte Jones, one of the curators of the Limestone Barrens Project, who is based in Corner Brook, will summarize their involvement in

the Limestone Barrens Project (LBP).

The LBP investigates links between three areas: The limestone cliffs and alvars of the Bruce Peninsula in Ontario, the Burren in County Clare, Ireland, and the limestone barrens of the Northern Peninsula.

The talk, which will be illustrated by slides, will feature stewardship on the peninsula and will focus on artists and writers visits to the three areas.
